LAURENTIAN UNIVERSITY'S OFFICIAL STUDENT PAPER

THURSDAY • OCTOBER • 4 • 1990

Now that it's Thanksgiving,

YOU CAN STILL...

Bélanger Still Prez

The Executive Committee of the Board of Governors has invited Dr. Bélanger to continue in his capacity as Acting President until such time as a new President has been named. Dr. Bélanger has accepted and will continue to carry out the Presidential duties.

Acting upon the recommendation of Dr. Bélanger, the Executive Committee has approved the extension of the appointments of Drs. M. Dewson and L. Reed respectively as Acting Vice-President (Faculty and Services) and Acting Vice-

President (Research and Programs). Dr. Joan Mount will replace Dr. L. Reed as the Acting Director of the School of Graduate Studies and Research, effective Sept. 1, 1990. All term appointments are effective until June 30, 1990.

Computer Language Training

A joint venture between Computer Services, Personnel Services and the School of Commerce will enable Laurentian University to offer on-campus MS-DOS and Vax software courses during both the fall and winter sessions. The instructor will be Mark Lafontaine, the University's Software Support Advisor.

Beginning October 10, 1990, hands-on laboratory courses at the introductory levels for PC concepts, MS-DOS, WordPerfect, Lotus 123, SPSS and DB will be offered. These will run Mondays and Wednesdays, in the morning. Demand will determine whether DBIII+ or DBIV is offered. Classroom courses on Vax software, VAX VMS, EDT, E-Mail, Kermit and SPSS-X will be offered Friday afternoons. The program

will be repeated in the winter session, subject to demand; it will then be available in French.

Enrolment is limited and acceptance into the course will be based on a brief questionnaire and work-related needs. Laboratory capacity is limited to 10; classroom size is limited to 20 participants. Non-faculty employees must register through Personnel Services at ext. 3016;

faculty should register through Steve Beynon at ext. 2202. Staff who need intermediate or advanced training will be referred to other resources subject to cost and availability. Bridge courses, e.g. DBase III+ to DBIV and WP 4.2 to 5.1, may also be scheduled in the winter sessions, if demand warrants.

Further information and timetables can be obtained through Lisetta Chalupiak, ext. 3014, or Steve Beynon, ext. 2202.

Concert Pianist Joins Huntington Faculty

Kathleen Solose, a concert pianist who has received international and national acclaim in her ongoing concert career, has recently joined the faculty at Huntington College. After a four-year period performing in Germany and Switzerland, Ms. Solose is making Canada, and in particular Sudbury, her new base for teaching and performing. She has worked frequently as a recitalist for CBC Radio in Toronto and Vancouver. Previously a member of the faculty at the University of Victoria, the Victoria Conservatory of Music, the Royal Conservatory of Music and the University of Toronto, Ms. Solose will teach piano performance at Huntington.

Her musical background includes a Master of Music degree from the Juilliard School, New York; several

years of post-graduate study in Italy; and a year at the Moscow Conservatory as the visiting Canadian artist. Ms. Solose was awarded six Canada Council Grants for study abroad. Her teachers have included Myrtle Guerrero in Toronto,

noted artist-teacher Adele Marcus in New York, Italian masters Carlo Zecchi and Guido Agosti, and the Russian pianist Stanislav Neuhaus.

SGA ANNOUNCEMENT

TO ALL STUDENTS PURSUING APPEALS:

Please contact the S.G.A. office as soon as possible with the details of your situation so that the Senate representative can best represent you at your appeal.

From the Editor's Pen

Just a little note to say Happy Thanksgiving and to wish everyone, young and older a safe and happy holiday.

Remember, this weekend is a time to reflect and be thankful for many things. Personally, I'm thankful that I will spend this holiday season with my family.

It wasn't until two years ago, that I finally realized what it meant to be truly thankful. You see, someone in my family was unable to spend the holiday with us due to the ill fate of cancer; (or so we thought).

The long and short of it was that our family wanted nothing more than to have this person with us. Even if it was to be the last time! Luckily, she was able to leave the Princess Margaret Lodge in Toronto and spend Thanksgiving dinner with us. It was to me, the most

joyous Thanksgiving dinner my family had ever shared.

To us, this holiday meant simply a big feast and no school on Monday. To this day, it now means a celebration of life, love and togetherness; that of our family's.

If you're going home to your family this weekend, you're very lucky. Be thankful you are able to do so as very many others cannot. Take this time to appreciate what it means to have a family and once more, what it truly means to be part of one.

Blood is thicker than water, and family is truly a treasure to be enjoyed by all.

Happy Thanksgiving & Don't Drink & Drive.

by Tricialynn B. Morgan

The Termination of the Canada Employment Centre on Campus

In August, the SGA office received a memo from Gabrielle Lavigne, Manager of the Canada Employment Centre on Campus. She informed the SGA that the employment centre would be without the services of a full time secretary/receptionist for the fall.

Due to government cutbacks, the student services lost were as follows:

1. Individual counselling interviews;
2. Classroom presentations, workshops, information sessions;
3. Review of resumes;
4. Posting of Casual Job Orders;
5. Co-ordination of interviews for Faculte d'Education.

Unfortunately, the SGA then received notice that the government would be removing employment centres on campuses across Canada. The doors of Laurentian's employment centre will be permanently closed as of April 30, 1991.

Although government involvement has been completely withdrawn, the services offered by the employment centre could still survive. But, that depends on you, the student body. The SGA is urging all students to voice their concerns directly to Dr. Charles Bélanger (LU Acting President) in the form of a letter. The Employment Centre is your direct link to the job market. Without this service, your job market potential is decreased significantly.

For your information, the Canada Employment Centre last year placed over 1,000 students with casual, part-time and full-time job positions.

Once again, there is a possibility that this service may be funded by Laurentian University. Please express your support for the survival of the employment services on campus. Every letter to Dr. Bélanger (LU Acting President) keeps the hope alive.

The SGA immediately called a meeting between student leaders, university administration and management of the Employment Centre to express our concerns. A secretary was hired at the expense of the University as a result of this meeting.

"Out of Harms way"

Recently newspapers published statistics on the number of reported incidences of sexual assault occurring in various communities across Canada. Sexual assault, physical abuse and issues relating to violence against women, children and the elderly are now a primary concern for all in Canada.

Out of Harm's Way is a Canadian company founded in 1988 whose commitment is to provide "Total Family Protection" within the context of the information package enclosed, a company committed to providing women with a way to regain their personal right to self protection. The Out of Harm's Way Sexual Assault Awareness Program is being offered in house by Canada's leading corporations . . . corporations which are demonstrating their commitment to improving the quality of daily life for their female employees by providing them with information and preventative training on sexual assault. To date, in excess of 180 corporations have offered the course to over 8,000 women.

In addition, "Out of Harm's Way" specializes in personal and home safety products. The two most popular are the "Out of Harm's Way" Personal Emergency Alarm and the "Out of Harm's Way" Safety Whistle, (Canadian designed and manufactured

by Fox 40). The effective useage of both safety items are demonstrated in the course. Both these non-offensive alert devices can play a key role in surprising an attacker, alerting others to your danger and increasing the chances of the assailant being driven away or apprehended. These "Out of Harm's Way" products and program empower women to have an increased sense of control and independence, in an area where they have long felt vulnerable and victimized.

The "Out of Harm's Way" Sexual Assault Awareness Program, Emergency Alarm and Safety Whistle are being made available on a wider basis each month, throughout Canada. I am contacting newspaper editors throughout the country in an effort to reach your readership, and provide them with the knowledge that alternatives to violence are available. Personal safety, either at home, work or travel can be dramatically increased through the Out of Harm's Way approach.

For further information, please contact: Dolores and Don Wadden Founders "Out of Harm's Way" Total Family Protection 1742 Appleview Pickering, Ontario L1V 1T8 (416) 286-1131

A Vote in Favor of GST

I don't like the GST. What else is new. If you were to ask 10 people on the street whether or not they liked the GST, 11 of them would say no. Lets face it, no one likes new taxes. The GST is not just a new tax were none has been before though. The GST is going to replace the existing federal sales tax. So even without the GST we are still going to be paying the same amount of taxes. The difference is that the new tax will be kinder to domestic manufacturers and will remove what is now a trade advantage for foreign manufacturers. Even though we may not like it, the GST is a far better tax than what we have now.

The old Federal Sales Tax is levied on goods at the manufacturers level instead at the point of final sale like Ontario's provincial sales tax is now. That means that any manufactured products being imported into Canada do not have this tax adding to the price of the product. This gives a foreign producer of manufactured goods an advantage in the Canadian market place. In the old day's this could very easily be compensated for by putting a tariff on these goods coming into the country. Now that Canada is in a free trade environment with the US, we can no longer do that. What we need is a tax at the point of sale so that it affects the price of goods equally for anything be it foreign or domestic. This is what the GST is going to do for us.

One of the good features of this tax is that it will tax services as well as goods. This widens the tax base so that we can pay a lower rate of tax on a larger number of things. This is however, one of the aspects of GST that has so many people upset. Many services will be taxed once the GST is in place that have never been taxed before. It is only fair though that we have a broad based tax rather than a narrow based one. Is taxing books going to lead to greater illiteracy? Is taxing haircuts going to lead to a resurgence of hippies? Hogwash. If anyone is going to criticize the GST then it should be for not going far enough.

Why are some things left out of the GST? The very nature of such a tax is that it covers everything. If we are going to have it then it should be as comprehensive as possible. If it's not then we are favoring some goods or services over others. Why should caviar in a grocery store be purchased tax free while bread at a corner store be taxed? If you are going to make it work right then you tax everything possible and then give tax credits to those who are least able to pay, such as, for students, a tax credit on books, and for low income people, a tax credit on food. This way we don't end up with these ridiculous discrepancies that make no social or economic sense. Another problem with this tax is one that is up to the provinces to correct.

figure out which products are not taxed, which ones have either PST or GST but not both, and which ones do have both. The Federal government could not delay the imposition of this tax for the months or years it would take in negotiations until all of the provinces agreed. So now we are left with this system of tax bingo. So far, the only province with any sense has been Quebec. They have decided to save their retailers the headache of figuring out what's what by matching their provincial tax with the GST. I hope that the Bob Rae will have the good sense to do the same when the GST does come into effect. We can complain and criticize right now but the GST will become a reality in a short while and we are going to have to live with it. Hopefully in the future the Federal government can make the amendments to the tax to make it better and the provincial governments will do the smart thing by matching their provincial taxes with the GST.

ENTREPRENEURSHIP

Laurentian Entrepreneurs Club

by Tricialynn B. Morgan

Laurentian Entrepreneurs Club, now in it's second year of operation, is nationally affiliated with ACE Canada (Academic Collegiate Entrepreneurs).

This year's National theme is "Hands on Experience." With "Hands on Experience", club members get to work with others, while getting experience they can use latter on in life. In addition, they get to work with and meet people with similar social and academic interests.

For those concerned, Laurentian Entrepreneurs Club is an organization dedicated to encouraging and assisting students in the development of new innovative ideas, therefore encouraging everyone to get involved and "get the experience" through such projects as the "Movie Night" business or by helping to organize events. Using skills sharing ideas and helping to create a better and more successful entrepreneurs club is what is aimed for.

According to Sean Fitzpatrick, club president, the club will be holding many social events this year, which will include Movie Nights, a prominent Entrepreneur Night in which local entrepreneurs from the community will talk, as well as Wine & Cheese, and Beer & Pizza Nights.

Get
the
Experience!

To be a Club member, it costs \$10 for the year and enables members to free admission to various events and a National Newsletter from ACE Canada.

Comments Fitzpatrick, "anyone who has a desire to sometime open or start their own business is perfect." Last year the Club had 30 members, this year with help of CLUB DAY, the Club's goal is 40 members.

Club Day was a huge success according to Fitzpatrick. The Club expected to recruit 40 members over all (including members expected to be recruited on Club Day). However, they managed to recruit 27 paid members and 47 non-paid members pleasing Fitzpatrick and Champagne. The Club is hoping that the Wine and Cheese on October 11th is just as successful.

Take advantage and be sure to get involved! It's a great way to get practical experience and meet some terrific people like Fitzpatrick and Champagne!

Positions open to be applied for:
Director for Movie Night business
Marketing personel
Operations personel
Accounting personel
Also: Executive Council to be applied for:
Secretary
Treasurer
Club relations
*resumes are requested

Project Peregrine Update 90

The campus peregrine falcons housed on the roof of the Married Students Residence continued to mature during the month of August, and on several occasions two to four of the birds were observed chasing and diving after one another. Sometimes two birds would roll over and lock talons in mid-air, tumbling for several metres before releasing and continuing the chase. Near the end of August this behaviour was replaced by repeated chases of other birds such as gulls, crows, pigeons and robins. On most occasions, these were mock attacks which honed the falcons' flying skills and endurance. One peregrine was observed swooping at gulls

on nearby Bethel Lake for 45 minutes. Although the falcons were presented with a continuous supply of dead quail throughout August, they have become less dependent on this food source and have become successful at capturing their own. By the end of August, two pigeons and one robin were verified as killed by the falcons; however, other successful hunts are likely as most feeding occurs at dawn and dusk when it is difficult for observers to monitor behaviour. Also, as the month progressed, the falcons spent less and less time on campus; however, the few birds that appear on campus periodically will be monitored until they join the others on the long migration to Mexico.

EMPLOYMENT CENTRE GONE!?!

Past graduates of Laurentian University have had the opportunity of utilizing the services of the On Campus Canada Employment Centre (CEC-OC). For the many students attending this institution who have yet to use this service you may find in the future that they will no longer be offered.

In early April, Federal budgetary cutbacks eliminated the CEC-OC office's permanent clerical staff thereby limiting the centres ability to conduct the extensive services they've provided in the past. Gabrielle Lavigne, manager and now sole employee, issued a memo dated Sept. 13 outlining the services cut. They are as follows:

1. Individual counselling interviews;
2. Classroom presentations, workshops, information sessions;
3. Review of resumes;
4. Pre-screening for the Work Study Program;
5. Work on Casual Job Orders;
6. Co-ordinating interviewing activities for Faculte d'Education.

However, the above problems appear trivial in comparison to more recent events. As of April 1991 it has been indicated that the CEC-OC will be closed due to the aforementioned district budget restrictions. This will eliminate the following services offered mainly to upper year students:

1. Contacting employers;
2. Recruiting new companies;
3. Providing a liaison between students and employers and university committee;
4. Establishing, scheduling and hosting interviews;
5. Organizing follow-up interviews;
6. Posting of employment opportunities;
7. Handling of all post secondary government recruiting, including testing.

If the present decisions are upheld, You the graduates of 1992 and future years will be frustrated to find yourselves graduating without the proper channels to remain competitive, with other universities, in today's job

market.

I would encourage ALL students, especially those who will be most effected (the 1992 Grads) to voice your concerns over this issue. Let both the University and the Canada Employment Centre know your opinion.

1990-91 LU Registration Up

Registration figures as of September 10, 1990 show an overall 2.5% increase in full-time registrations at Laurentian. Registrations in 1989-90 totalled 4,309; to date, 4,417 full-time students are enrolled in 1990-91. The programs that show the greatest increases overall from 1989-90 are Engineering (8.4%), Arts four-year (9.0%), Human Movement and Sports Administration (11.7% each) and Science four-year (13.9%). The most significant decreases in enrolment since 1989-90 occurred in Science three-year and non-degree programs (-10.5% each), Université canadienne en France (-26.7%) and Translators and Interpreters (-27.1%).

First-year full-time registrations for 1990-91, however, showed a decrease of only one student from 1989-90 (from 1,512 to 1,511). First-year programs experiencing the greatest enrolment increases include Arts three-year (8.6%), Sports

Administration (22%) and Nursing (27.1%). The largest decreases in first-year registrations have occurred in Science three-year (-16.2%), Commerce (-20.5%) and Translators and Interpreters (-31.3%).

THE SCOTIA BANKING ADVANTAGE TAKE IT WHILE YOU CAN!

We know that students have special banking needs. That's why we designed the Scotia Banking Advantage.

This package of services is available to you as long as you're a full-time, post-secondary student and come into your Branch to reactivate the package each school year (prior to October 31st). Take a look at what we have to offer.

A Daily Interest Savings/Chequing Account With No-Charge Chequing

Open a Scotia Powerchequing[®] Account. You'll earn daily interest on your deposit and you won't have to pay the usual cheque, pre-authorized payment, withdrawal or transfer fees. You can write as many cheques as you want at no charge without having to maintain a specific minimum monthly balance.

The Convenience Of An Automated Banking Machine Card

With a Cashstop[®] Card and your Scotia Powerchequing Account, you can make withdrawals,

deposits, transfers, balance enquiries and VISA payments, free of applicable service charges, day or night, at any Scotiabank Cashstop machine.

A No-Fee Credit Card

You'll be able to apply for a Scotiabank Classic VISA[®] card with a \$500 credit limit. And as long as you have the Scotia Banking Advantage, we won't charge you the usual annual fee.

A Grad Auto Loan³

Once you graduate and have a job, a Grad Auto Loan can help you get a new or used car (up to 3 model years old). You can arrange to postpone the start of your repayment for up to 90 days from the date the loan is advanced to you.⁴ Apply as early as 90 days before starting your new job and up to a year after graduation.

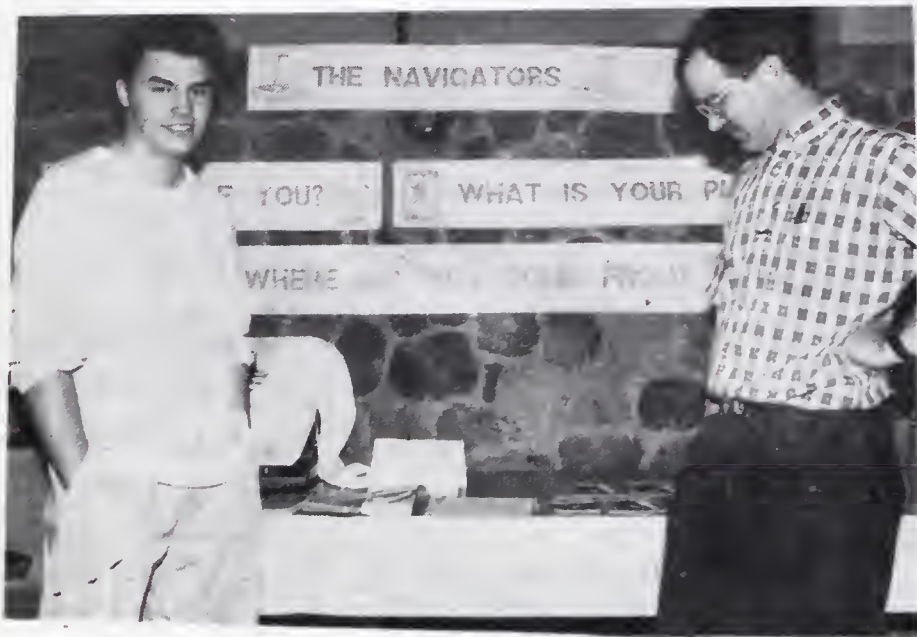

For full details on the Scotia Banking Advantage, visit any Scotiabank Branch. We'll be happy to help you.

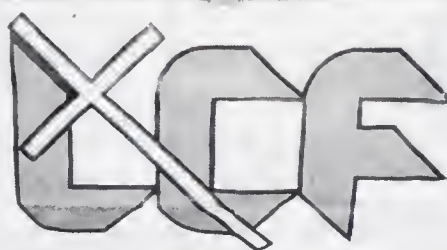

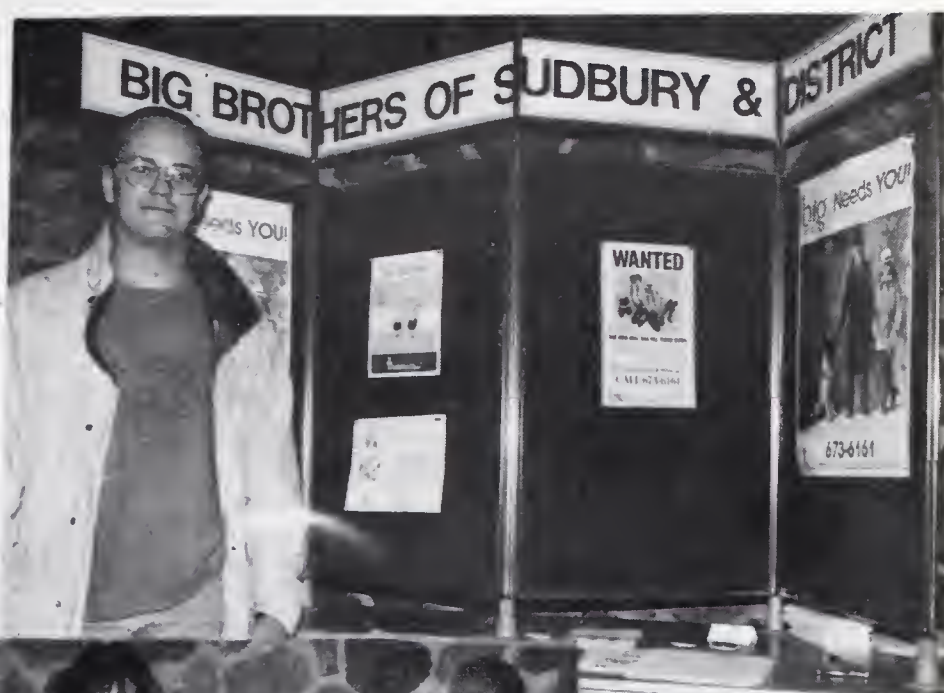

Scotiabank

[®]Registered Trade Marks of The Bank of Nova Scotia
¹ In Quebec, this service is called Trans-Action
² BNS registered user of mark

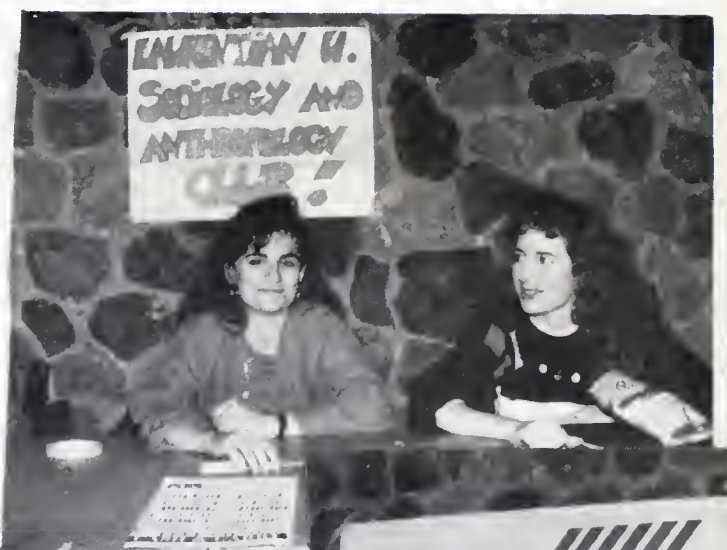

³ For graduates only, subject to satisfactory job verification and credit approval.
⁴ Interest is calculated from the date of Note. We will apply installments first to the payment of interest and the remainder if any to the unpaid balance of the total amount you have borrowed.

LAURENTIAN CHRISTIAN FELLOWSHIP

REPRENEUR'S CLUB

FLU IMMUNIZATION

It may seem a little early to be thinking about the nasty effects of a winter "flu" bug, but it isn't. Every year, in Canada, up to one third of the population may contract the illness known as influenza and some will die from it. But there is something you can do to prevent contracting the flu. Medical experts recommend immunization with a flu vaccine, particularly if you are in a high risk category - that includes everyone over the age of 65 and anyone with chronic medical conditions such as heart, lung or kidney disease or diabetes. **HIGH RISK** individuals are urged to make arrangements with

their doctor to get a **FREE** flu shot now. It is recommended to have the vaccination each year in October to build up your immunity before flu season starts. Avoid an unpleasant and possibly dangerous bout with the flu this winter - immunize now.

DOES INFLUENZA VACCINE WORK?

Influenza can be prevented. Flu vaccine provides a safe and effective method of protecting those at greatest risk. In any given year it provides between 70% and 90% protection against true influenza. But influenza vaccine cannot protect those who do not receive it. Medical experts suggest that influenza will continue to

claim lives unnecessarily unless efforts to increase public awareness about the dangers of influenza and the benefits of flu vaccine are dramatically increased. The message is simple - if you want to avoid the flu this year, then a visit to your doctor in October or November for an annual flu vaccination is the way to play it safe. If you or someone you know is over 65 or has a chronic medical condition, consider a flu shot. It could save your life.

IS THERE ANY RISK WITH FLU VACCINE?

Today's influenza vaccines are extremely safe - most people have little or no reaction to the vaccine. One in four may experience tenderness at the injection site. A much smaller number, probably more children than adults, may experience a slight fever within 24 hours. Occasionally, chills, headache or mild nausea may occur within a day of vaccination.

WHY IS INFLUENZA SO DANGEROUS?

One aspect is that influenza is extremely contagious - one of the most contagious viruses found. It also plays no favourites - anyone can get it. Up to 30% of the population may contract influenza in a severe epidemic. The real danger with influenza is the complications. The influenza virus leaves your body's resistance weakened and open to other infections. Bacterial pneumonia is the most common complication

and it can be very serious. Complications of influenza are more common in certain high risk groups, and for that reason, flu vaccine is available **FREE** at your doctor's office to all individuals in Ontario in the following high medical risk groups:

1. anyone over 65 years of age,
2. anyone of any age with serious diseases such as :
 - lung disease
 - heart disease
 - kidney disease
 - diabetes
 - cancer
 - blood disease
 - immune system disease,
3. residents of nursing homes or chronic care facilities.

FLU VACCINE IS FREE TO HIGH RISK GROUPS

The annual bout with the "flu" that plagues so many Canadians each winter can be much more than just a nuisance that makes you feel miserable for a few days. It can be life threatening. Influenza vaccine is the single most effective way of preventing influenza.

WHAT IS TRUE INFLUENZA?

Influenza is a contagious respiratory disease caused by a virus. Anyone can get the flu and even for normal healthy people, it can be severe enough. Influenza is much more serious than the common cold. Classic flu symptoms include a bad cough, fever, chills, aches and pains, weakness and loss of appetite. It usually keeps people in bed for several days in an extremely weakened condition with weakness and fatigue lingering for several weeks afterwards.

CAPSULE SUMMARY

Influenza is a serious illness that can lead to death. Anyone can get the flu. If you are age 65 or older, or are unwell because of chronic illness, you are in the high risk group for influenza and can obtain **FLU VACCINE FREE** at your Doctor's office. Influenza may be prevented if you receive flu vaccine each fall.

LAMBDA PUBLICATIONS

Laurentian's Official Student Press
Since 1961

Lambda is the official weekly student newspaper of, by and for the students of Laurentian University. Lambda is funded through a direct student levy by the members of the Students General Association, yet remains editorially autonomous for all University organizations, both student and administrative.

Lambda is a member of Canadian University Press (CUP) and as a member respects and upholds the CUP statement of Principles and Code of Ethics.

The Lambda Forum is governed by an open letter policy. However, we will not print any material which is deemed racist, sexist, homophobic, libellous, or in bad taste. All letters must bear the authors full name, however, printing of names will be withheld upon request.

Staff membership is open to all members of the Laurentian University community and is contingent upon three published contributions, or fifteen hours of volunteer work per half term.

DEAR JILLIAN,

Hey Laurentian, you have had Dear Pierre, now let's hear it from a womans' perspective. Got a problem or something you want to talk about, write Dear Jillian, c/o Lambda.

Dear Jillian,

I work with a guy who's really great! He's friendly, caring and a real sweetie. We are becoming good friends. Doesn't sound like a problem right? Well it isn't really; except for the fact that I'm very attracted to him. I'm worried about over stepping what may become a fantastic friendship for the sake of lust.

HELP

P.S. My family has met him and they think I should go for it.

Dear HELP,

I am assuming that your friend has shown some interest in you as well. I can't see any problem. All great relationships start with friendships. Having your family on your side is another plus. So don't worry. Grab him, he sounds like the perfect guy, but if you decide to pass him by, send him my way, I could use a little lust.

Dear Jillian,

Is it really true that all women are bitches and all men are assholes?

NEED TO KNOW

Dear NEED TO KNOW,

Yes, it is true. All women can be bitches, but only when men decide to be assholes.

Dear Jillian,

I had this friend or so I thought. She's not my friend anymore! She used to tell me I was dumb, slutty, non-political, etc., etc. Well, now she's jealous of me because I was recently promoted one step above her, and she couldn't handle it. So now she's working elsewhere. I just wanted to ask you if it would be wrong to call her an ugly, fat bitch,

who'll never be half as successful as me?

JUST ASKING YOUR OPINION

Dear JUST ASKING YOUR OPINION,

I think it would be very fitting to call her that. Obviously she was jealous of you all along. She is definitely not what I would call a friend. Steer clear of her.

Dear Jillian,

Are you married to or having an affair with Dear Pierre?

TELL ME

Dear TELL ME,

Dear Pierre and I don't like to mix business with pleasure, but in this case our business is pleasure. So you decide.

Dear Jillian,

Here's my scenario . . .

I'm taking a class at Thornloe and there's a guy I like very much in the class. He's seen me look at him, and I've chatted with him briefly but I'm nervous and shy. How do I get him to notice me? I'd like him to take me out to dinner. Got any suggestions?

A SOCCER FAN

Dear SOCCER FAN,

We are all a little bit nervous around someone we are interested in and I'm sure he is nervous as well. Try starting a conversation about a class assignment you both have, or ask him if you could work together on a project for the class. Borrow some notes you don't have from the class you missed last week and tell him you'll drop them by his place that night. Or if you can get up the courage, just ask him to come over to your place for dinner, then he'll owe you one, right!

SOCCOR VEES RANKED 3RD IN CANADA

This year's edition of Laurentian Soccer Vees are once again gunning for the CIAU title that narrowly eluded them last season. Vees captured the OUAA Championship and suffered a heart breaking loss to UBC in penalty kick tie-breaker, in the CIAU Semi-Final.

Head coach Greg Zorbass, who returns for his 21st season, cautions that the Soccer Vees have "lost a lot of experience from last year" and the true test for this year's squad is yet to come. Gone are All-Canadian sweeper Roy Soussa to graduation, second leading scorer in Ontario Vince Paparo, Augusta Ferreira, a four year veteran who scored the winning shootout goal against Laurier in the OUAA Final, and standout All-Canadian keeper Paulo Tuscano.

Although Vees have lost four key starters, they were ranked 3rd in Canada at press time behind UBC and St. Mary's. Zorbass expects the traditional competition from 10th ranked Toronto, 5th ranked Queen's; as well as York and Carleton to continue this season. Laurier, Western, and Windsor are the annual powers in the West, however the East has usually captured the OUAA title "will not be easy because every opponent is anxious to beat the league champs."

In their first 5 games (4 wins & 1 tie), the play of keeper John Kowal has been a "pleasant surprise" as he attempts to fill the big shoes vacated by Tuscano. "The full potential of the team is yet to be reached," according to their coach, as 4 starters have been sidelined with injuries. The injury situation has been positive in the sense that it has allowed the rookies to display their formidable skills while gaining some experience.

Vees overall record stands at 194-41-46, with 8 OUAA, 3 OIAA, and 2 CIAU ('71, '83) titles to their credit. In spite of their defeat in the Canadian Championships, last year's veteran players came to camp in shape with a positive attitude, ready to be victors rather than victims of soccer's infamous penalty kick tie-brakers. Repeating as OUAA champs will be a difficult task in itself as the feat has been accomplished only once - by Laurentian in '79.

Brian Allan

Scott Keenan, Derek Zoldy, John Alpaugh, Lindsay Campbell

BASEBALL BEAT

The Toronto Blue Jays have now had eight straight .500 or better seasons, the longest in the majors. A true model of consistency....

However the Mets have averaged 96 victories over the last 6 years, by far baseball's best over that period of time.... Four out of the five National League strikeout leaders at the end of last week were Mets (Dwight Gooden, David Cone, Sid Ferababdez and Frank Viola).... Doug Drabek is the first Pirate pitcher to get 20 wins since

present Blue Jay John Candelaria did it in 1977.... Pirates Barry Bonds and Bobby Bonilla will battle for the National League MVP award. Darryl Strawberry will finish third.... Kal Daniels of the Dodgers has hit the most home runs (27) by a lefthanded hitting Dodger since the team moved west from Brooklyn.... Since Cal Ripken has been in the league, he has hit at least 20 home runs each season (9).

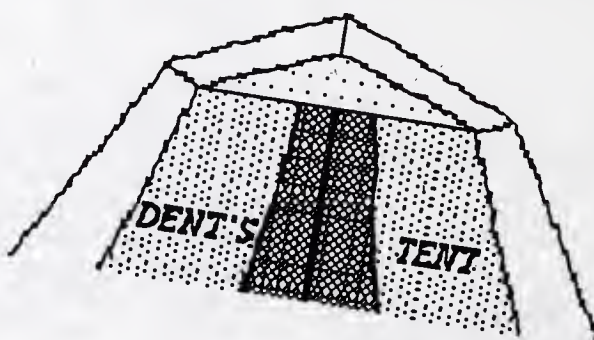

Regionals this year. Cornwall LaCitadelle is making its second appearance at the tournament. Last year they brought a team of grade elevens so this years team is looking for a much stronger showing.

On the weekend of October 5th & 6th Laurentian University will be hosting the 12th annual Laurentian Invitational Senior Girls High School Basketball Tournament. Games will be palyed at the Ben

Avery Complex. Returning this year are last years defending champs Lasalle. Lasalle last year made it to the quarter finals at OFSAA. Also returning are last years consolation champs, Marymount, last years finalists Timmins High, Barrie Innisdale, and LaCitadelle High (Cornwall). Barrie Innisdale has won this tournament twice in the past and also won OFSSA three years ago. They were in a rebuilding process last year and have a good chance of winning the Georgian Bay

New entries this year include Smith Falls District Collegiate Institute, Sir Winston Churchill (Thunder Bay), and Elliot Lake. Smith Falls is a very competitive team. Three palyers are on the Ottawa Rookies Juvenile team which is one of the top club teams in Ontario.

Action begins with the tip off scheduled for 3:30. Action resumes on Saturday morning at 8:30. the championship game is scheduled for Saturday night. Best of luck is extended to all the participants. Spectators are welcome to come and watch the games.

NO HACKERS OR SLASHERS TO BE FOUND HERE

The Laurentian University intramural golf tournament was held under sunny skies on Friday, September 28, 1990. Forty seven golfers turned up to take part in the event held at the Pine Grove Golf Club. Many teams stuck around for some presentations at the end. The winning foursome consisted of John Alpaugh, Derek Zoldy, Scott Keenan, and Lindsay Campbell. Their score of seven under par was tub better than Shawn Roy's foursome. The longest drive award went to Jay Quesnel with team mate Greg Yerwood zeroing in on the closest to the pin award.

Special thanks go out to sponsors: the Grand Theatre, the Sudbury Wolves Hockey Club, Science North, Pepsi Cola Beverages, Bobb's T-Shirts, and radio Q92/CIGM.

Thanks to all the participants who took part. Hope to see you all next year.

Dean Pliosz

Falconbridge Lecture to Explore the Modern Search for Ethics

DR. Margaret A. Sommerville, Founder and Director of the McGill Centre for Medicine, Ethics and Law in Montreal, will present the first Falconbridge lecture of the 1990-91 series on Thursday, October 4th, in Laurentian University's Fraser Auditorium. Dr. Sommerville will speak on "A Generation's Revolution in consciousness: The Search for Ethics."

The Globe and Mail has said of her work: "Ms. Sommerville has become Canada's best-known expert on medical ethics. As we all struggle in our own minds with the explosion of ethical dilemmas raised by abortion, euthanasia, biotechnology, in vitro fertilization, Aids and the costs of universal access to medical care, such people help us understand what is happening."

The complex, multi-faceted ethical dilemmas that Dr. Sommerville has researched include problems in the allocation of scarce health-care resources as Canada's population ages; questions of consent, privacy and fairness in the treatment of patients incapable of making decisions for themselves; medical experimentation on humans; the increasing social and financial toll that AIDS will take on society; and issues generated by recent advancements in reproductive technology.

Dr. sommerville brings a background of extraordinary breadth to study of modern medico-legal ethical dilemmas. Born in Australia,

she received a degree in Pharmacy from the University of Adelaide in 1963, followed by an LL.b from the University of Sydney in 1973, and a Doctorate in comparative Law from McGill University in 1978. Her career in the interdisciplinary exploration of ethics was presaged by her doctoral thesis: "Medical Experimentation on the Person; A Comparative Survey of Legal and Extra-Legal Controls." She has published and lectured extensively on medical, legal and ethics topics.

Appointed to both the Faculty of Law and the Faculty of Medicine at McGill University, Dr. Sommerville has undertaken both medical and legal research along with teaching. She established the McGill Centre for Medicine, Ethics and Law in 1986 with backing from McGill and Montreal hospitals, and support from the faculties of medicine, law, research, religious studies and philosophy. The Centre undertakes theoretical and empirical research, and offers consulting services to McGill teaching hospitals, other institutions and the community.

The Falconbridge Lecture Series, initiated in 1978, sponsors lectures at Laurentian University financed by a memorial fund established at Falconbridge Nickel Mines Ltd., and supported by private donations. The business, public life, the professions and the arts.

Admission to the lectures is free and open to the public.

THE PEER TUTORING PROGRAM CENTRE FOR TALENT DEVELOPMENT

G 7, Student Street, Single Student Residence

Applications are invited from Laurentian University students to become tutors.

You are eligible:

- if you earned at least a 'B' grade (in previous years) in the course you wish to tutor

- and if your average for your last year is a 'B' or better.

You will earn \$6.00 per hour for one-on-one tutoring.

There is a high demand for tutors in Math, Computer Science, Commerce (Accounting), and Social Science Statistics.

Pick up application forms from The Centre for Talent Development or from departmental secretaries.

URGENT : Tutors needed for Math 1912.

Centre de Développement des Talents
Programme de Leçons Particulières

G 7 Rue des Etudiants
Résidence des étudiants célibataires

Comme étudiants de l'Université Laurentienne, vous êtes invités à donner votre nom pour devenir répétiteurs.

Vous pouvez être répétiteurs: -si vous avez obtenu la note "B" (lors des années précédentes) dans le cours que vous désirez aider un autre étudiant. -et si votre moyenne générale pour l'année passée est un "B" ou mieux.

Vous serez payés à un taux horaire de 6 \$ pour être répétiteurs d'un étudiant.

La demande d'aide est grande dans: mathématiques, commerce (comptabilité), science de l'informatique, et statistiques dans les sciences sociales.

Venez au Centre de Développement des Talents ou autres départements, pour obtenir un formulaire.

LOCS

LAURENTIAN OFF-CAMPUS STUDENTS, WILL HOLD ELECTIONS OCT. 4, 1990, AT 5:00 PM IN ROOM L508.
